Thanks! I did not realize there are three broadly applicables for AAA. Are they all derivatives of ASTM 3053 or something else?

Lisa,

Subpart AAA – Total =10

Subpart QQQQ – Total =11

I believe that 4 of these are Broadly Applicable Test Methods (3 for AAA, and 1 for QQQQ)

Helpful?

Stef

Hi Stef, Happy Thursday! I was wondering if you could tell me how many ATMs have been allowed for AAA and QQQQ?  
Thanks!
